HIMAYA FERNANDO

Undergraduate in Information Technology

Himaya Fernando,
Rathnapura Road,
Baduraliya.

Dear Hiring Manager,

I am excited to apply for the Full Stack Developer internship position at your esteemed company. As a student currently pursuing my studies in Information Technology at the Sri Lanka Institute of Information Technology (SLIIT) and the University of Sri Jayewardenepura, I am eager to leverage my academic and project experiences to contribute to your team.

Throughout my studies, I have gained proficiency in core web development technologies, including HTML, CSS, JavaScript, Java, and Python, alongside frameworks and libraries that support front-end and back-end development. My coursework and hands-on projects have allowed me to design and develop web applications and software systems, honing my technical and problem-solving skills.

In addition to my technical expertise, I have a strong understanding of full-stack development principles and experience working in collaborative environments. My university projects required not only technical implementation but also teamwork, attention to detail, and effective communication, all of which are essential for success in a professional development role.

I am particularly passionate about creating user-centric, efficient, and scalable applications. I am eager to enhance my skills by learning modern frameworks, improving my understanding of database management, and gaining practical experience in cloud-based solutions.

I believe my enthusiasm for technology, adaptability, and commitment to continuous learning make me a strong candidate for this role. I am excited about the prospect of contributing to your development team while growing as a Full Stack Developer under the mentorship of experienced professionals.

I would welcome the opportunity to discuss how my skills and aspirations align with your needs. Please feel free to contact me at himayafernando2001@gmail.com or via +94 760055958 at your convenience. Thank you for considering my application. I look forward to the possibility of contributing to your organization.

Sincerely,

Himaya Fernando

HIMAYA FERNANDO

Information Technology Intern

ABOUT ME

I am a dedicated web developer with strong expertise in the MERN stack (MongoDB, Express, React, Node.js) and a solid foundation in object-oriented programming. I have hands-on experience in HTML, CSS, JavaScript, and UI/UX design, creating responsive and user-friendly web applications. As an Information Technology undergraduate at SLIIT, I am looking for an internship to enhance my skills and gain hands-on experience in real-world projects.
